# FUNDS GREATLY NEEDED | REUNION OF VETERANS TO AID CAPITAL BABIES

Work of Diet Kitchen Association Survivors of Regiment to Commem-Handicapped by Lack of Money.

#### HELP SAVE A BABY.

There is an organization in Washington which is accomplishing, and can accomplish in greater measure still, a task which amounts to a civic duty. The degree of this further accomplishment depends upon the desire of Washingtonians to further the good work. The tangible means by which every resident of the District can demonstrate his or her desire to encourage and expedite the work of saving Washington babies is to send a subscription of \$1 to the dist kitchen fund, care The Star.

If it was put up to you as a cold proposition that you could pay for a baby's life with one dollar, ten dollars or a hundred dollars, you wouldn't hesitate very long, would you? You send your dollar, and the Diet Kitchen Association, with its staff of physicians and trained nurses, especially equipped for the task of saving Washington's babies, will do the rest. Doesn't the proposition appeal to you to the extent of one dollar?

Subscriptions were announced today, as follows: it was put up to you as a cold prop-

Speaking upon the present status of he work of the Diet Kitchen Associa-on. Miss Mary Gwynn, who is at the ead of that orranization, told a rep-esentative of The Star the following

cts recently:
"The number of babies under the "The number of babies under the supervision of the Diet Kitchen Association," said Miss Gwynn, "has been increased by 50 per cent in the past year. On the other hand the number to when we are able to furnish milk has decreased 12 per cent. The mothers who so truly need the counsel the association can supply them with have not be a slow in strasping the value of this advice. But the funds are low, and the work we could do unhandicapped must be exactly be hampered till this condition is relieved."

We a Gwynn spoke further of the extension of the field of activity of the resolution. She told how the number of physicians on the staff has increased for three in 1913 to eight in 1915; the number of nurses on the staff from one in 1913 to eight in 1915; the number of visits made by mothers with the babies to the stations from 541 in 1923 to 11,997 in 1915. It was a story of constant development and ever-in-

#### Suggests Offering.

"The big task is done," said Miss Gwynn, "Those whom we seek to reach have been educated up to the point where they seek and desire our servicees. Surely Washingtonians who are able to contribute to the means whereby we can aid them will not hesitate to help the work along. Why not make the subscription we ask for Thanksgiving offering?"

Why sot, indeed? Is it much to ask that the mothers of healthy, happy children throughout the District give evidence of their thankfulness by ing what they can to insure health and happiness for those other babies who cannot have the advantages enjoyed by theirs? Miss Gwynn thinks not. What do you think?
